

FOCUSED

We remain focused on our core competency and long history of manufacturing durable electronics.

ALIGNED

Our global footprint and capabilities are aligned with the preferences and requirements of our customers.

DISCIPLINED

We are disciplined experts and leaders when it comes to the design, manufacturing, and testing of electronic assemblies and products that require the highest level of quality, reliability, and regulatory compliance.

COMMITTED

We are committed to our time-proven Guiding Principles and core values which have made us successful.

At Kimball Electronics, we continue to be proud of the global team of employees that are focused on, aligned with, and committed to our customers, our people, the environment, and our Share Owners. Everyday, they embrace our strategies and help make us more successful, creating lasting relationships with global success.
